Educate

We hold quarterly classes that offer a framework to understand human trafficking and serve survivors. Training focuses on defining human trafficking, needs of survivors, and getting connected with the cause.

Advocate

We believe in responding to human trafficking holistically. We recognize the importance of both micro and macro level responses to tackling human trafficking. We act as a resource to organizations by advocating for policy and partners so that those impacted by human trafficking have access to the best community resources.

Care

We act as a resource to survivors by standing in the gap between restorative care and transitional employment by supporting the pursuit of higher education. Our hope is that more survivors would be restored into society, welcomed in the workplace, and thriving in their community.
